PERNYATAAN KAWALAN DALAMAN

FUNGSI JABATAN AUDIT DALAMAN

Fungsi utama audit dalaman adalah untuk memberi jaminan yang munasabah kepada Lembaga bahawa sistem kawalan dalaman berfungsi dengan sempurna, berkesan, dan ketelusannya dikekalkan.

Fungsi audit dalaman adalah untuk menjalankan kajian semula ke atas sistem kawalan dalaman bagi aktiviti-aktiviti penting LTAT dan Kumpulannya berpandukan Pelan Tahunan Audit Dalaman yang dibentangkan kepada Jawatankuasa Audit untuk kelulusan. Proses audit dalaman mengambil pendekatan berdasarkan risiko dan, merangka pelan dan strategi audit berdasarkan profil-profil risiko berkaitan dengan unit-unit perniagaan.

Semua laporan audit dalaman adalah dibentang untuk perbincangan Jawatankuasa Audit. Pengurusan adalah bertanggungjawab bagi memastikan tindakan pembetulan diambil atas kelemahan-kelemahan yang dilaporkan dalam tempoh masa yang ditetapkan. Jawatankuasa Audit mempunyai akses penuh kepada kedua-dua juruaudit dalaman dan juruaudit daripada pejabat Ketua Audit Negara.

PENGURUSAN RISIKO

LTAT adalah komited untuk memastikan Rangka Kerja Pengurusan Risiko memainkan peranan utama dalam usaha untuk mewujudkan satu urus tadbir korporat yang terbaik di LTAT. Oleh itu, LTAT telah menyediakan Rangka Kerja Pengurusan Risiko bagi memastikan risiko diambil kira dalam semua proses membuat keputusan dan bagi membolehkan tindakan wajar diambil untuk meminimumkan pendedahan kepada risiko setelah risiko tersebut dikenal pasti.

Sehubungan dengan hal itu, LTAT telah menubuhkan Jawatankuasa Pengurusan Risiko di peringkat tertinggi dan unit-unit pengurusan risiko di setiap jabatan. Satu jabatan Pengurusan Risiko juga ditubuhkan bertujuan menguruskan risiko secara lebih berkesan. Memandangkan kepada cabaran masa hadapan yang lebih getir, LTAT terus memperketatkan pemantauan ke atas situasi risiko bagi memastikan langkah-langkah pengurusan risiko yang sesuai dapat diambil.

PERUTUSAN PENGERUSI

PERUTUSAN PENGERUSI

Tahun 2011 sekali lagi merupakan tahun yang penuh cabaran buat LTAT. Pertumbuhan ekonomi dunia telah berkembang dengan kadar 4.0% pada tahun 2011 berbanding 5.2% tahun sebelumnya. Keadaan tekanan inflasi yang meningkat, suasana geopolitik yang bergolak di Timur Tengah serta sentimen kebimbangan mengenai kedudukan fiskal dalam ekonomi negara maju seperti USA dan Eropah dan malapetaka yang menimpa beberapa buah negara telah mempengaruhi pertumbuhan ekonomi pada paras yang lemah berbanding tahun sebelumnya. Walau bagaimanapun, pertumbuhan ekonomi negara terus berkembang kukuh pada kadar 5.1% dipacu oleh permintaan dalam negeri yang menggalakkan dan disokong oleh perbelanjaan sektor swasta dan awam. Ketangkasan negara dalam menangani kesan kegawatan ekonomi global menggambarkan sokongan padu rakyat serta komitmen kerajaan dalam memberi fokus dan menyediakan penyelesaian segera ke atas perkara yang menjadi keutamaan rakyat. Pelaksanaan projek-projek infrastruktur utama negara di bawah Program Transformasi Ekonomi (ETP), Bajet 2011 dan Rancangan Malaysia ke-10 telah berjaya merangsang pertumbuhan negara ke arah yang lebih kukuh.

Berdasarkan senario ekonomi semasa, saya dengan sukacitanya, bagi pihak Lembaga, membentangkan Laporan Tahunan dan Penyata Kewangan Lembaga Tabung Angkatan Tentera yang ketiga puluh sembilan dan Penyata Kewangan Kumpulan LTAT yang ketiga puluh bagi tahun berakhir 31 Disember 2011.

LAPORAN PRESTASI

Tahun 2011 merupakan satu lagi tahun yang cemerlang buat LTAT. Bagi tahun kewangan berakhir 31 Disember 2011, LTAT telah berjaya mencatat jumlah pendapatan sebanyak RM859.9 juta meningkat 14.4% berbanding RM751.5 juta pada tahun 2010 dan sekaligus merupakan rekod tertinggi keuntungan LTAT sejak ditubuhkan 39 tahun yang lalu.

Pendapatan dividen daripada pelaburan LTAT di dalam syarikat-syarikat pelaburan disebut harga dan tidak disebut harga serta dividen saham keutamaan boleh tebus terkumpul merupakan penyumbang terbesar kepada pendapatan LTAT dengan jumlah sebanyak RM519.5 juta. Pendapatan daripada sumber ini meningkat 20.9% berbanding RM429.6 juta bagi tahun 2010. Prestasi ekonomi negara yang terus kukuh ketika keadaan ekonomi global yang tidak menentu serta strategi pelaburan yang tepat telah membantu syarikat pelaburan LTAT mencapai keuntungan yang lebih tinggi dan dapat memberi pulangan baik kepada LTAT.

Walau bagaimanapun, pendapatan dari keuntungan penjualan saham sebanyak RM140.6 juta turun 18.0% berbanding RM171.6 juta bagi tahun 2010. Penurunan ini adalah disebabkan oleh tumpuan strategi utama LTAT adalah kepada penjanaan pendapatan melalui dividen daripada pelaburan di dalam syarikat-syarikat yang berpotensi. Sumbangan terbesar pendapatan kategori ini merupakan keuntungan nilai saksama bersih yang dipindahkan dari pelaburan dalam ekuiti berjumlah RM104.3 juta berbanding RM130.5 juta yang diperoleh tahun sebelumnya.

Dalam tahun yang dilapor, sebanyak RM30.3 juta merupakan pendapatan yang diterima daripada deposit tetap dan deposit-deposit jangka pendek. Pendapatan dari sumber ini meningkat 21.2% berbanding RM25.0 juta bagi tahun 2010.

Dalam tahun yang dilapor, LTAT juga memperoleh keuntungan daripada pelburannya dalam bon Sukuk Al-Musyarakah dan pelburannya dalam nota jangka pertengahan berjumlah RM45.8 juta meningkat 38.9% berbanding RM33.0 juta tahun sebelumnya.

Pelaburan luar Malaysia LTAT di dalam Dana Infrastruktur Bank Pembangunan Islam ('IDBIF') yang berpusat di Bahrain yang kini berjumlah RM14.3 juta memberikan pendapatan berjumlah RM145,000.

Pendapatan daripada sewaan bangunan milik LTAT bagi tahun yang dilapor juga meningkat 20.3% kepada RM30.8 juta berbanding RM25.6 juta dalam tahun 2010.

Bagi tahun 2011, pendapatan daripada pelaburan yang diuruskan oleh 8 pengurus portfolio meningkat 174.1% kepada RM23.3 juta berbanding RM8.5 juta bagi tahun 2010 kerana keadaan pasaran saham yang kukuh yang mencatat paras tertinggi 1,594.74 mata pada 7 Ogos 2011 sebelum mengakhiri tahun 2011 pada 1,518.91 mata.

Pendapatan lain LTAT termasuk yuran perkhidmatan pengurusan, faedah bayaran balik pinjaman kakitangan, keuntungan penjualan harta tanah, loji dan peralatan serta keuntungan nilai saksama daripada pelaburan harta tanah, menurun 61.5% kepada RM14.1 juta berbanding RM36.7 juta bagi tahun sebelumnya. Penurunan ini sebahagian besarnya adalah disebabkan keuntungan nilai saksama daripada pelaburan harta tanah LTAT bagi tahun 2011 menurun kepada RM12.1 juta berbanding RM34.8 juta tahun lalu.

PERUTUSAN PENGERUSI

LAPORAN PRESTASI (sambungan)

Mulai tahun 2010, LTAT telah melaksanakan penglaporan prestasi kewangannya berdasarkan piawaian perakaunan Financial Reporting Standard (FRS) 139 di mana keuntungan nilai saksama sekuriti dipegang untuk urus niaga boleh direkodkan sebagai pendapatan dalam tahun yang dilaporkan. Berdasarkan penglaporan yang diguna pakai dan peningkatan dalam nilai pasaran portfolio LTAT yang disokong oleh prestasi pasaran saham tempatan yang memberangsangkan, portfolio LTAT telah memperoleh keuntungan nilai saksama sekuriti dipegang untuk urus niaga berjumlah RM55.4 juta bagi tahun 2011. Jumlah ini meningkat 190.3% berbanding RM19.1 juta yang diperoleh pada tahun sebelumnya.

Pencapaian LTAT yang terus cemerlang adalah hasil daripada strategi LTAT yang melabur di dalam pelbagai sektor dan industri bagi menjamin kemantapan pulangan pelaburan di dalam apa juga keadaan ekonomi di samping memastikan pertumbuhan baik pelaburan dalam jangka masa panjang. Portfolio pelaburan LTAT telah berjaya memberi pulangan yang baik kepada LTAT sama ada dalam bentuk dividen, faedah atau keuntungan modal (capital gains) bagi membolehkan LTAT mencatat keuntungan yang membanggakan bagi tahun 2011.

DIVIDEN DAN BONUS

LTAT amat komited untuk memastikan dana yang diamanahkan diuruskan dengan baik dan teratur bagi memastikan pulangan yang maksimum kepada pencarum LTAT dalam bentuk dividen, bonus serta faedah-faedah lain.

Untuk instrumen kewangan tanpa harga pasaran yang disebut harga, nilai saksama adalah dianggarkan menggunakan nilai semasa bersih ataupun teknik penilaian lain. Teknik-teknik ini melibatkan darjah ketidakpastian bergantung kepada andaian-andaian dan penilaian-penilaian yang digunakan merujuk kepada ciri-ciri risiko instrumen kewangan, kadar diskau, anggaran aliran tunai masa hadapan, kerugian dijangka masa hadapan dan faktor-faktor lain. Perubahan-perubahan dalam andaian akan memberi kesan yang ketara terhadap anggaran-anggaran dan nilai saksama yang dihasilkan.

Instrumen kewangan merangkumi aset kewangan, liabiliti kewangan dari instrumen kewangan luar penyata kedudukan kewangan. Nilai saksama ialah amaun yang aset kewangan boleh tukar atau liabiliti kewangan boleh selesaikan di antara pihak-pihak berpengetahuan dan bersetuju dalam urus niaga tulus. Maklumat yang dibentangkan di dalam ini merupakan anggaran terbaik nilai saksama pada tarikh pelaporan.

Harga pasaran yang dapat dilihat dan disebut harga adalah digunakan sebagai pengukur nilai saksama. Jika harga-harga pasaran yang dapat dilihat dan disebut harga, nilai saksama ditentukan menggunakan teknik penilaian, yang termasuk penggunaan model matematik, perbandingan dengan instrumen yang sama yang mana harga dapat dilihat pasaran wujud dan teknik penilaian lain. Dalam menentukan nilai saksama, andaian dibuat mengenai ciri-ciri risiko pelbagai instrumen kewangan, kadar diskau, anggaran aliran tunai hadapan dan faktor-faktor lain. Perubahan dalam andaian tersebut boleh memberi kesan yang besar ke atas anggaran ini dan nilai saksama yang dihasilkan.

Maklumat nilai saksama bagi aset bukan kewangan dan liabiliti bukan kewangan tidak dimasukkan memandangkan maklumat tersebut tidak termasuk dalam skop FRS 132 Instrumen Kewangan : Pendedahan. 2. DASAR-DASAR UTAMA PERAKAUNAN (sambungan)**(d) Penggunaan pertimbangan dan anggaran (sambungan)**

Tiada pertimbangan kritikal dan ketidaktentuan ketara dalam mengguna pakai dasar-dasar perakaunan yang memberi kesan ke atas pengiktirafan amaun-amaun di penyata kewangan kecuali yang dilaporkan dalam nota-nota seperti berikut:

- Nota 3 : Harta tanah, loji dan peralatan
- Nota 5 : Pelaburan harta tanah
- Nota 8 : Sekuriti sedia untuk dijual
- Nota 10 : Pembangunan harta tanah dalam perlaksanaan
- Nota 11 : Sekuriti dipegang untuk urus niaga

2.2 Ringkasan dasar-dasar utama perakaunan**(a) Syarikat-Syarikat subsidiari**

Syarikat-syarikat subsidiari ialah syarikat-syarikat di mana LTAT mempunyai kuasa untuk mengawal secara langsung atau tidak langsung dasar-dasar kewangan dan operasi bagi memperolehi faedah daripada kegiatan-kegiatannya. Kewujudan dan kesan daripada potensi hak untuk mengundi yang boleh dilaksanakan atau boleh ubah akan dipertimbangkan apabila menilai sama ada LTAT mempunyai kuasa ke atas entiti lain.

Pelaburan disebut harga dan tidak disebut harga dalam syarikat subsidiari dinyatakan pada kos setelah ditolak kerugian kerosakan aset.

(b) Syarikat-Syarikat bersekutu

Syarikat bersekutu ditakrifkan sebagai sebuah syarikat yang bukan subsidiari, di mana LTAT mempunyai kepentingan jangka panjang di antara 20% sehingga 50% dan mempunyai pengaruh yang berkesan di dalam penentuan dasar kewangan dan kegiatan syarikat tersebut.

Pelaburan disebut harga dan tidak disebut harga dalam syarikat bersekutu dinyatakan pada kos setelah ditolak kerugian kerosakan aset.

(c) Harta tanah, loji dan peralatan dan susut nilai

Semua butiran harta tanah, loji dan peralatan pada mulanya direkodkan pada kos. Kos-kos berikutnya adalah dimasukkan dalam amaun dibawa aset atau diiktiraf sebagai aset berasingan, seperti sewajarnya, hanya apabila kemungkinan manfaat-manfaat ekonomi masa depan berkaitan dengan butiran tersebut akan masuk ke dalam LTAT dan kos butiran tersebut boleh diukur dengan pasti. Amaun dibawa bahagian yang diganti tidak diiktiraf. Semua pemberian dan penyelenggaraan lain dicaj ke penyata pendapatan komprehensif apabila ia ditanggung.

Selepas pengiktirafan awal, harta tanah, loji dan peralatan selain daripada tanah milik bebas dinyatakan pada kos tolak susut nilai terkumpul dan sebarang kerugian kerosakan terkumpul.

Penilaian semula ke atas harta tanah yang terdiri daripada tanah dan bangunan akan dibuat pada setiap tarikh penyata kedudukan kewangan bagi mengenal pasti sama ada terdapat kerugian kerosakan aset atau sebaliknya. Kerugian kerosakan atau defisit daripada penilaian semula diiktiraf sekiranya nilai dibawa aset melebihi nilai diperolehi. Nilai diperolehi adalah nilai saksama aset selepas ditolak kos jualan atau nilai penggunaan.

Sebarang lebihan daripada penilaian semula akan diiktiraf di dalam pendapatan komprehensif lain dan diambil kira di dalam ekuiti sebagai rizab penilaian semula aset kecuali, sekiranya ia merupakan pembalikan kepada defisit penilaian bagi aset yang sama yang telah dicaj ke untung atau rugi sebelumnya.

Sebarang defisit daripada penilaian semula akan diiktiraf di dalam untung atau rugi, kecuali, sekiranya ia merupakan pembalikan kepada lebihan penilaian bagi aset yang sama yang telah diambil kira di dalam ekuiti sebagai rizab penilaian semula aset sebelumnya.

Susut nilai terkumpul akan dihapuskan daripada nilai kasar dibawa dan dinyatakan pada nilai saksama. Lebihan daripada penilaian semula sesuatu aset yang diambil kira di dalam rizab penilaian semula aset akan pindahkan ke dalam keuntungan terkumpul sekiranya aset tersebut dilupus atau dijual.

2. DASAR-DASAR UTAMA PERAKAUNAN (sambungan)

2.2 Ringkasan dasar-dasar utama perakaunan (sambungan)

(c) Harta tanah, loji dan peralatan dan susut nilai (sambungan)

Tanah milik bebas tidak mempunyai jangka hayat kegunaan yang terhad dan tidak dilunaskan. Tanah pegangan pajak jangka panjang dilunaskan sepanjang jangka masa pajakan. Susut nilai harta tanah, loji dan peralatan lain diperuntukkan berdasarkan kaedah sama rata untuk menghapus kira kos setiap aset sepanjang tempoh anggaran jangka hayat kegunaannya pada kadar tahunan seperti berikut:

Bangunan	
- Milik Bebas	2%
- Pegangan pajak jangka panjang	2% - 20%
Loji dan peralatan lain	20%

Amaun dibawa, jangka hayat kegunaan dan kaedah susut nilai dikaji semula pada setiap akhir tahun kewangan bagi memastikan amaun, kaedah dan tempoh susut nilai adalah konsisten dengan anggaran sebelum ini dan jangkaan corak penggunaan manfaat-manfaat ekonomi masa depan yang terangkum dalam butiran harta tanah, loji dan peralatan tersebut.

Sesuatu butiran harta tanah, loji dan peralatan dinyahiktiraf semasa pelupusan atau apabila tiada manfaat ekonomi pada masa depan dijangka daripada penggunaan atau pelupusannya. Perbezaan antara hasil pelupusan bersih, jika ada dan amaun dibawa diiktiraf dalam penyata pendapatan komprehensif.

Susut nilai pada tahun hanya dikira bagi harta tanah, loji dan peralatan yang dibeli sebelum 1 Julai. Susut nilai bagi belian selepas 30 Jun akan disusut nilai pada tahun berikutnya. Harta tanah, loji dan peralatan bernilai kurang RM1,000 seunit dihapus kira sepenuhnya pada tahun pembelian.

(d) Pembangunan harta tanah

Pembangunan harta tanah merupakan tanah di mana tiada aktiviti dilaksanakan. Pembangunan harta tanah dinyatakan pada kos ditolak sebarang kerugian kerosakan terkumpul.

(e) Pelaburan harta tanah

Pelaburan harta tanah adalah harta tanah yang dipegang untuk memperoleh pendapatan sewa atau bagi modal tambah nilai atau kedua-duanya. Harta tanah yang disewakan kepada syarikat-syarikat subsidiari LTAT untuk menjalankan operasi perniagaan diambil kira sebagai diduduki oleh pemilik dan bukan pelaburan harta tanah.

LTAT telah menerima pakai kaedah nilai saksama dalam mengukur pelaburan harta tanah. Pelaburan harta tanah diukur pada permulaannya pada kos, termasuk kos urus niaga. Lanjutan daripada pengiktirafan permulaan, semua harta tanah diukur pada nilai saksama, dengan apa-apa perubahan diiktiraf dalam penyata pendapatan komprehensif. Apabila sesuatu harta tanah, loji dan peralatan dipindahkan kepada pelaburan harta tanah berikutan perubahan dalam penggunaannya, apa-apa perbezaan dari tarikh pindahan antara amaun dibawa sesuatu harta tanah, loji dan peralatan berkenaan sejurus sebelum pindahan dan nilai saksamanya diiktiraf dalam penyata pendapatan komprehensif. Sekiranya lebihan nilai saksama menterbalikkan kerugian kerosakan yang diiktiraf sebelum ini, lebihan tersebut diiktiraf dalam penyata pendapatan komprehensif.

Nilai saksama ini adalah berdasarkan nilai pasaran, iaitu jumlah anggaran yang harta tanah tersebut boleh ditukar pada tarikh penilaian antara pembeli yang sanggup membeli dan penjual yang sanggup menjual dalam urus niaga tulus. Nilai saksama pelaburan harta tanah ditentukan oleh penilai profesional bebas.

Pelaburan harta tanah dinyahiktiraf apabila ia telah dilupuskan atau apabila pelaburan harta tanah tersebut ditarik balik penggunaannya selama-lamanya dan tiada manfaat ekonomi masa depan dijangka daripada pelupusan berkenaan. Apa-apa laba atau kerugian pada penamatian atau pelupusan sesuatu pelaburan harta tanah diiktiraf dalam penyata pendapatan komprehensif.

Pelaburan harta tanah dalam binaan adalah diklasifikasikan sebagai pelaburan harta tanah. Jika nilai saksama pelaburan harta tanah dalam pembinaan tidak dapat ditentukan dengan tepat, pelaburan harta tanah adalah diukur pada kos sehingga nilai saksama dapat ditentukan atau pembinaan selesai, yang mana yang awal.

2. DASAR-DASAR UTAMA PERAKAUNAN (sambungan)**2.2 Ringkasan dasar-dasar utama perakaunan (sambungan)****(h) Kerugian kerosakan aset (sambungan)****(1) Aset kewangan (sambungan)**

Kerugian yang dijangkakan akibat daripada peristiwa masa hadapan, walau bagaimana berlaku, adalah tidak diiktirafkan.

Untuk pelaburan ekuiti, penurunan dalam nilai saksama daripada kos yang signifikan atau berlanjut adalah petunjuk objektif kerugian kerosakan.

Kadar peratusan siap dikira menggunakan peratus kos pembangunan harta tanah yang telah ditanggung di atas kerja yang telah dijalankan setakat tarikh berkaitan terhadap jumlah anggaran kos pembangunan harta tanah.

Apabila keputusan kewangan terhadap aktiviti pembangunan tidak dapat dianggarkan menggunakan dasar yang munasabah, hasil daripada pembangunan harta tanah diiktiraf hanya setakat di mana kos pembangunan harta tanah telah ditanggung yang dijangka dapat diperolehi semula dan di mana kos pembangunan harta tanah atas harta tanah yang dijual diiktiraf sebagai perbelanjaan dalam tempoh di mana ia ditanggung. Sebarang kerugian yang dijangka di atas projek pembangunan termasuk kos yang akan ditanggung di sepanjang tempoh kerosakan dibayar, adalah diiktiraf sebagai perbelanjaan dengan serta-merta.

In relation to this, LTAT has set up a Risk Management Committee at the highest level and a risk unit in every department. A Risk Department was also set up to ensure effective management of risk. In view of greater challenges ahead, LTAT continues to tighten its monitoring of every risk situation and to scrutinize each one closely to ensure that appropriate risk management steps are taken.

CHAIRMAN'S REVIEW

CHAIRMAN'S REVIEW

CHAIRMAN'S REVIEW

2011 was indeed a year fraught with numerous challenges that impacted the global economy. Several glaring circumstances contributed to these conditions. The volatility of uncertain economic conditions in the USA, the worrying European debt crisis, the geopolitical tension in the Middle East compounded with natural disasters in certain nations and a host of other pressures pulled down the global economy. By virtue of this, the world's economic growth dropped to 4% in 2011 compared with 5.2% in 2010.

Malaysia bucked the trend and not only delivered a stable economic climate but also brought about growth prospects. Primary consideration for this development was due to the Government's commitment of aiming for a high income economy via the Economic Transformation Programme followed by Budget 2011 and the 10th Malaysia Plan.

Based on the current economic scenario stated, I am pleased to present, on behalf of the Board, the thirty-ninth Annual Report and Financial Statement of Lembaga Tabung Angkatan Tentera (LTAT) and the thirtieth Financial Statement of the LTAT Group for the financial year ending 31 December 2011.

PERFORMANCE REVIEW

LTAT performed exceptionally well for the year under review, registering a total gross income of RM859.9 million, an increase of 14.4% compared with RM751.5 million in 2010. I am pleased to inform that this is our highest recorded profit since our establishment 39 years ago.

Dividend income from LTAT's investments in various quoted and unquoted companies and redeemable cumulative preference shares was the main contributor to LTAT's total income and amounted to RM519.5 million which was a significant 20.9% increase from the previous year's RM429.6 million. The nation's strong economic performances in the midst of global economic uncertainties as well as well formulated investment strategies has enabled LTAT's investment companies to achieve higher profits which in turn give good returns to LTAT.

Our investment strategy for the year was to get best possible return from the various companies in our portfolio. Towards this end, profits from the sale of shares for the year under review contributed RM140.6 million, a decline of 18% compared with RM171.6 million in 2010. The key driver for this segment was profit generated from net fair value transferred from equity investments amounting to RM104.3 million compared with RM130.5 million registered last year.

LTAT received a total of RM30.3 million in the form of interest from fixed deposits and short-term deposits representing a 21.2% increase over last year's RM25 million.

LTAT also received gains from our investments in the Sukuk Al-Musyarakah bond and in Medium Term Notes amounting to RM45.8 million, an increase of 38.9% compared with RM33 million the previous year.

LTAT's offshore investment in Islamic Development Bank Infrastructure Fund (IDBIF) based in Bahrain stood at RM14.3 million, bringing in a revenue of RM145,000.

Rental income received during the reporting year also increased by 20.3% to RM30.8 million compared with RM25.6 million in 2010.

In 2011, income received from investments managed by eight external portfolio managers increased by 174.1% to RM23.3 million compared with RM8.5 million in 2010. These improved returns were attributable to the strong performance of the Malaysian stock market during the year under review, which recorded a high of 1,594.74 points on 7 August 2011 before closing at 1,518.91 points at year-end.

LTAT's other income amounted to RM14.1 million, comprising of management fees, interest received from staff loans, gain from sale of properties, plant and equipment and fair value gain of property investment. This was a 61.5% decrease compared with RM36.7 million last year, mainly due to the fair value gain of property investment amounting to RM12.1 million compared with RM24.8 million registered in 2010.

CHAIRMAN'S REVIEW

PERFORMANCE REVIEW (continued)

Effective 2010, LTAT adopted the Financial Reporting Standard (FRS) 139 whereby gain on fair value of security held for trading for the reporting year is recorded as an income. Based on the reporting standards adopted and an increase in the market value of LTAT's portfolio supported by the strong performance of the stock market, LTAT's recorded gain on the fair value of the security held for trading in 2011 amounted to RM55.4 million, an increase of 190.3% compared with RM19.1 million registered in the previous year.

The results achieved are a reflection of our sound investment strategy. This strategy is not limited to any particular sector but involves a basket of sectors and industries which then allow us to achieve stable returns that should weather even the most unpredictable economic conditions, ensuring positive growth. Hence, LTAT's investment portfolio has yielded exceptional returns in the form of dividends, interest and capital gains, thus enabling it to register sterling results for 2011.

DIVIDEND AND BONUS

Dedicated to enhancing value for its contributors, LTAT is committed to delivering maximum possible returns in the form of dividends, bonus and other benefits.

LTAT's record performance in 2011 enabled us to declare a 15% dividend and bonus to our contributors, an increase of 1% compared with 14% paid in 2010. This comprised a 7% dividend, a 1% bonus and a 7% special bonus in the form of unit trusts to our active members. Total payout for the dividend and bonus amounted to RM680.4 million, a 10.4% increase compared with RM616.3 million the previous year.

APPROPRIATION OF PROFIT

Total income available for appropriation amounted to RM1,273.9 million including a net profit for the year of RM796.8 million and a balance of accumulated profit restated as at 1 January 2011 totaling RM477.1 million. The profit was appropriated as follows:

The largest item under total assets was the Members' Contribution Account which increased by 6% to RM7.1 billion compared with RM6.7 billion in the previous year. GROUP PERFORMANCE

At Group level, profit before tax and zakat for the year 2011 rose by 5.8% to RM1.8 billion compared with RM1.7 billion last year. The Group's total assets grew by 17% to RM69.4 billion compared with RM59.3 billion the previous year.

CHAIRMAN'S REVIEW

MEMBERS CONTRIBUTION ACCOUNT

Members' Contribution

Members' contribution received in 2011 amounted to RM618.8 million, a 0.3% increase compared with RM616.9 million in 2010. The cumulative balance of members' contribution for 2011 was RM7.1 billion, representing a 6% rise compared with RM6.7 billion in the previous year. This was mainly due to the dividends and bonus credited into members' accounts.

End of Service Withdrawals

In 2011, LTAT paid RM705.7 million to 6,115 members who retired or left the armed forces, an increase of 4.3% compared with RM676.8 million paid to 5,983 members in 2010.

Housing Withdrawal Scheme

Under the housing withdrawal scheme, a member is allowed to withdraw up to 40% of his contribution or 10% of the price of an immovable property, whichever is less, to purchase a first residential property or land to build a house. For the year under review, a total of RM23.3 million was paid to 4,034 members for housing withdrawals compared with RM23.2 million paid to 4,297 members in 2010.

Death and Disablement Benefits Scheme

Under the Death and Disablement Benefits Scheme, LTAT makes special payment to the dependents of a member who dies while in service and disability payment to a member who is discharged from service by reason of infirmity of mind or body. In 2011, LTAT paid out a total of RM6.7 million to 267 beneficiaries under the scheme, a 20.5% increase compared with RM5.5 million paid to 235 beneficiaries in 2010. Of this amount, a total of RM4.8 million was paid to 192 beneficiaries under the Death Benefits Scheme compared with RM3.5 million paid to 175 beneficiaries the previous year, while a total of RM1.9 million was paid to 75 members under the Disablement Benefits Scheme compared with RM1.4 million paid to 60 members in 2010.

LTAT's CORPORATION

Perbadanan Perwira Niaga Malaysia (PERNAMA)

PERNAMA, a wholly-owned corporation of LTAT, was established to undertake business activities relating to retailing, wholesaling, distribution, import and export, hire purchase of goods and provision of management services. PERNAMA's retail outlets offer a wide variety of consumer goods, some of which are duty-free, to members of the armed forces and their families, retired members of the Malaysian Armed Forces, and members of the Commonwealth Forces and Malaysian Army Reserve who have undergone at least 72 hours of training at any one time.

In 2011, PERNAMA registered record sales of RM220.3 million, a 12.7% increase compared with RM195.4 million in the previous year. This was driven by improved sales in retail goods, motorcycles, computers and glassware. Profit before tax for the year under review was RM17.5 million, a decrease of 3.8% compared with RM18.2 million in 2010. The decline was due to the adoption of FRS 139, which requires higher provision to be made for bad debts compared with the previous standard.

PERNAMA recorded strong results in the retail market, with a 19.6% increase in sales as a result of the KASUMA credit sales scheme. Cash sales also increased by 11.5% to RM88.4 million compared with RM79.3 million in 2010. This was mainly attributed to higher sales of food products via the 'Prihatin' price programme which offers special subsidies for basic household items for members of the armed forces. A total of RM3.3 million in subsidies was spent on the programme in 2011, an increase of RM300,000 compared with the previous year.

This excellent performance enabled PERNAMA to pay a dividend of 50% amounting to RM25 million to LTAT.

LTAT's CORPORATION (continued)

Perbadanan Perwira Harta Malaysia (PPHM)

PPHM, another wholly owned corporation of LTAT, was established to enable LTAT to participate actively in Malaysia's thriving property sector. PPHM presently is involved in a number of mixed property development projects and the management of construction projects and buildings, with the aim of generating strong returns to LTAT while at the same time help to build and offer affordable homes to members of the armed forces.

For the year ended 31 December 2011, PPHM registered a profit before tax of RM629,400, a 78% jump in profit compared with RM353,600 the previous year. Income was derived from contract works, project management fees, maintenance management fees for buildings owned by LTAT and insurance commissions. PPHM recorded an operating revenue of RM5 million, a 58% decline compared with RM11.8 million in 2010, mainly due to a delay in the implementation of projects that were originally planned to be launched in 2011.

During the year under review, PPHM was awarded a new project from the Ministry of Defence to design and build family quarters and other related works in Kem Batalion Infantri, Batu Pahat, Johor.

In 2011, PPHM declared a dividend of 1% amounting to RM230,000 to LTAT.

Perbadanan Hal Ehwal Bekas Angkatan Tentera (PERHEBAT)

PERHEBAT, the third wholly-owned corporation of LTAT was incorporated in August 1994 to undertake various socio-economic and welfare programmes for both retiring and retired personnel of the Malaysian Armed Forces. However, since 1 January 2002, PERHEBAT's activities have been confined to programmes relating to training, retraining and providing educational enhancement to retiring and retired members of the armed forces. Other activities such as job placement, welfare and entrepreneurship development have been taken over by the Veteran Affairs Department (JHEV), Ministry of Defence.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

LTAT's responsibility is not only confined to delivering commendable results and achieving growth targets. LTAT is fully cognisant of the pivotal role we have to play in providing a host of facilities and financial assistance for a cross spectrum of armed forces personnel both serving and retired. This involves a wide range of initiatives especially in the area of training, education, welfare, home ownership and scholarships for children of eligible members of the armed forces.

Yayasan Warisan Perajurit

Over the years Yayasan Warisan Perajurit (YWP), which was established by LTAT's Group of companies led by Boustead Holdings Berhad has made various invaluable contributions to members of the armed forces by enhancing the level of education for their children and aiding eligible members. LTAT is fully committed to the goals and objectives of this Foundation, which has touched the lives 47,465 members of the armed forces and their children in the form of scholarships and other contributions since its inception in 2000.

In 2011, YWP scholarship totalling RM4.7 million was offered to 5,215 children of serving and retired armed forces personnel who performed well in their UPSR and PMR examinations as well as those who were offered admissions to further their studies at local universities. Apart from that, YWP also provide financial assistance to 53 ex-servicemen amounting to RM233,720 in 2011.

Staying true to its commitment to assist in improving the quality of education for young Malaysians, YWP has established a scholarship programme called 'Mengubah Destini Anak Bangsa' specifically for children of armed forces personnel who are offered to further their studies in pre-Diploma courses at University Teknologi Mara (UiTM). This programme allows LTAT to make an impact in the lives of children of armed forces personnel especially those from rural areas who are unable to further their studies due to poverty. Currently, YWP has allocated 200 scholarships with a contribution of RM1,700 for each student amounting to a total of RM340,000.

Cash Awards for Academic Achievements of Children of ATM Members

In addition to the scholarships, LTAT also presented RM839,150 in cash as an award to 797 children of armed forces personnel who achieved academic excellence in their PMR and SPM examinations in 2011. As at December 2011, LTAT has contributed a total of RM4.9 million to 6,702 eligible children of armed forces personnel.

PERNAMA's 'Harga Prihatin' Programme

LTAT's wholly-owned corporations are also involved in various CSR programmes for members of the armed forces and their families. PERNAMA for example, offers subsidised prices on food items such as rice, flour, milk, soya sauce, instant noodles, cooking oil, canned and bottle drinks under its 'harga prihatin' scheme to assist members of the armed forces to cope with the increasing cost of living.

Affordable Housing Scheme

In line with the Government's objective to provide affordable houses to as many Malaysians as possible, LTAT, through its affordable housing programme for members of the armed forces, has successfully built low and low-medium cost houses for eligible members of the armed forces. To date, a total of 1,650 units have been built and sold to eligible members of the armed forces in Mutiara Rini, Johor, Mutiara Damansara, Selangor and Taman LTAT, Bukit Jalil, Kuala Lumpur.

Based on the positive response from members, of the armed forces, LTAT through its subsidiaries and corporations led by Boustead Holdings Berhad and Perbadanan Perwira Harta Malaysia will continue to identify strategic new areas to be developed in future as affordable housing projects.

Additional Benefits To Members

LTAT continues to seek new ways to make a difference in the lives of its members in line with the objectives of its establishment. On that score, in 2011, the Cabinet agreed to extend LTAT's compulsory contribution scheme to members of the armed forces at officers' level. In addition, the Board of Directors of LTAT have also agreed to allow members to withdraw part of their contributions for the purpose of Haj pilgrimage as well as to provide flexibility on the terms of withdrawal for purchases of immovable property. 2.2 Summary of significant accounting policies

(a) Basis of consolidation

(i) Subsidiary companies

Subsidiary companies are companies in which the Group has directly or indirectly controlled the financial and operating policies so as to obtain benefits from their activities. The existence and effects of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

Investment in quoted and unquoted subsidiary companies eliminated on consolidation are stated at cost less impairment losses.

The consolidated financial statements comprise the financial statements of LTAT and all its subsidiary companies as at the reporting date. The financial statement of the subsidiary companies are prepared for the same reporting date as LTAT.

Subsidiary companies are consolidated from the date of acquisition until the date that such control ceases. In preparing the consolidated financial statements, intra group balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances. Loss that can be applied to non-controlling interests in a subsidiary companies is allocated to non-controlling interests even if this results in non-controlling interests having a deficit.

Acquisitions of subsidiary companies are accounted for using the acquisition method. The consideration transferred for the acquisition of a subsidiary companies comprises the fair value of the assets transferred, liabilities incurred, equity interest issued by the Group and any contingent consideration arrangement. The difference between these fair values and the fair values of the consideration (including the fair values of any pre-existing investment in the acquiree) is goodwill or a discount on acquisition. Discount on acquisition which represents negative goodwill is recognised immediately as income in statements of comprehensive income. Acquisitions-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

In business combinations achieved in stages, previously held equity interest in the acquiree is remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in statements of comprehensive income. Changes in the Group's equity interest in a subsidiary companies that do not result in a loss of control are accounted for as equity transactions.

For each business combination, the Group elects whether to measure the non-controlling interest in the acquiree at the acquisition date either at fair value or at the proportionate share of the acquiree's identifiable net assets.

The accounting policy for goodwill is set out in Note 2.2 (e).

Details of subsidiary companies are listed in Note 10.

NOTES TO THE FINANCIAL STATEMENTS
For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(a) Basis of consolidation (continued)

(ii) Associated companies

An Associated companies is defined as a company, not being a subsidiary companies, in which the Group has significant influence but not control, generally when the Group has long term equity interest and voting rights between 20% to 50%. Significant influence is the power to participate in the financial and operating policy decisions of the associated companies but not the power to exercise control over the policies.

Associated companies are accounted for in the consolidated financial statements using the equity method of accounting. Under the equity method, associated companies are carried in the consolidated statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the associated companies, less distribution received and less any impairment in value of individual investments.

The consolidated statements of comprehensive income reflects the share of the associated companies' results after tax. Where there has been a change recognised directly in the equity of associated companies, the Group recognises its share of such changes. Unrealised gains or losses on transactions between the Group and its associated companies are eliminated to the extent of the Group's interest in the associated companies. When the Group's share of losses exceeds its interest in an associated companies, the Group does not recognise further losses except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associated companies.

The most recent available financial statements of associated companies are used by the Group in applying the equity method. Where the dates of the audited financial statements used are not coterminous with those of the Group, the share of results is arrived at from the last audited financial statements available and management financial statements to the end of the accounting period. Where necessary, adjustments are made to the financial statements of the associated companies to ensure consistency of the accounting policies used with those of the Group.

For LTAT, quoted and unquoted investment in associated companies are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is charged or credited to statements of comprehensive income.

Details of associated companies are listed in Note 11.

(b) Investment in jointly controlled entities

Jointly controlled entities are corporations, partnerships or other entities over which there is contractually agreed sharing of control by the Group with one or more parties where the strategic financial and operating decisions relating to the entities require unanimous consent of the parties sharing control.

Investments in jointly controlled entities are accounted for in the consolidated financial statements using the equity method of accounting and are initially recognised at cost. The Group's investment in jointly controlled entities includes goodwill identified on acquisition, net of any accumulated impairment loss.

When the Group's share of losses in a jointly controlled entity equals or exceeds its interest in the jointly controlled entity, including any other unsecured receivables, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the jointly controlled entity.

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)**2.2 Summary of significant accounting policies (continued)****(b) Investment in jointly controlled entities (Joint venture company) (continued)**

The Group's share of profit or loss of jointly controlled entities after the acquisition is recognised in the statements of comprehensive income and the group's share of the movements in reserves is recognised in other comprehensive income. Cumulative post-acquisition movements are adjusted the carrying value of investments.

(c) Financial instruments

Financial instruments are categorised and measured based on accounting policies as follows:

(i) Initial recognition and measurement

Financial instruments are recognised in the Statement of Financial Position when, and only when, the Group and LTAT becomes a party to the contractual provisions of the financial assets.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial instruments not at fair value through profit or loss, directly attributable transaction costs.

Purchase and sales of investments are recognised and derecognised at trade date, at the date of the Group and LTAT purchase and disposal of the assets.

(ii) Categories and measurement

The Group's and LTAT's financial instruments are categorised and measured as follows:

Financial assets

Classification of financial assets are determined at initial recognition and will be reviewed at every reporting date, except for investment under held for trading category. The Group and LTAT are categorised investment in financial assets as follows:

(a) Held for trading securities

Held for trading securities are financial assets at fair value through profit or loss including financial assets held for trading or are designated as such upon initial recognition.

Any realised and unrealised gain or loss arising from the change in fair value or arising from sale of such securities are recognised in the statements of comprehensive income.

Other assets which are classified under this category are measured at fair value and any gain or loss arising from the changes in fair value is recognised in the statements of comprehensive income.

(b) Available for sale securities

Available for sale securities are financial assets which are not categorised under financial assets at fair value through profit or loss, or are not classified under the two preceding categories.

Investment in equities instruments where there is no quoted market price in an active market and whose fair value cannot be reliably measured, will be stated at cost.

Financial assets under available for sale category are measured at fair value and any gain or loss are recognised in other comprehensive income.

All financial assets except for held for trading securities are subject to impairment loss test.

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(c) Financial instruments (continued)

(ii) Categories and measurement (continued)

Financial assets (continued)

(c) Held to maturity securities

Held to maturity securities are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Group has the positive intention and ability to hold to maturity.

Held to maturity securities are measured at amortised cost using the effective interest method. Gains or losses are recognised in the statement of comprehensive income when the securities are derecognised or impaired and through the amortisation process.

If, as a result of a change in intention or ability, it is no longer appropriate to classify a financial investment as held to maturity, the available for sale investment is reclassified and re-measured at fair value, and the difference between its carrying amount and fair value shall be recognised in other comprehensive income, except for impairment losses and foreign exchange gains and losses.

Any sale or reclassification of a significant amount of held to maturity securities before maturity during the current financial year or last two preceding financial years will 'taint' the entire category and result in the remaining held to maturity securities being reclassified to available for sale except for sales or reclassification that:

- (i) are so close to maturity or call date that changes in the market rate of interest would not have significant effect on the financial asset's fair value;
- (ii) occur after the Group has collected substantially all of the financial asset's original principal; or
- (iii) are attributable to an isolated event that is beyond the Group's control, non-recurring and could not have been reasonably anticipated by the Group.

(d) Loan and receivables

Loan and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in active market. Financial asset classified in this category include cash and bank balances, loans and advances.

Interest income on loan and receivables is recognised in 'interest income' in the statements of comprehensive income.

Regular way recognition of loans, advances and financing is recorded on settlement date, when all the conditions under the loan contract have been fulfilled.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised fair value through the statements of comprehensive income.

Other financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in the statements of comprehensive income.

(iii) Derecognition

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expired, or the financial assets have been transferred to other parties without retaining any significant amount of risks and rewards from the transfers. On the derecognition of financial asset in its entirely, the difference between carrying amount and the sum of consideration received and any gain or loss that had been recognised in equity will be recognised in the statements of comprehensive income.

2.2 Summary of significant accounting policies (continued)

(c) Financial instruments (continued)

(ii) Categories and measurement (continued)

Financial assets (continued)

(iv) Fair value measurement consideration

Fair value of financial assets are measured at closing price of quoted shares in an active market. Unquoted investments whose fair value cannot be reliably measured in active market, are stated at cost.

(v) Regular way purchase or sale of financial asset

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

Regular way purchases or sales of financial assets is recognised or derecognised, as applicable, using trade date accounting. Trade date accounting refers to:

- (i) the recognition of an asset to be received and the liability to pay for it on the trade date, and
- (ii) the derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

(d) Derivative financial instruments

Derivatives are initially recognised at fair values on the date on which derivative contracts are entered into and are subsequently re-measured at their fair values. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and option pricing models, as appropriate. All derivatives are classified as assets when fair values are positive and as liabilities when fair values are negative.

The best evidence of fair value of a derivative at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless fair value of the instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Group recognises fair value gain or loss immediately.

(e) Intangible assets

(i) Goodwill

Goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised, but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill is allocated to the related cash-generating units of subsidiary company. Where the recoverable amount of the cash-generating is less than its carrying amount including goodwill, an impairment loss is recognised in the statements of comprehensive income. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill forms part of a cash-generating unit and part of the operation within that cash-generating unit is disposed of the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative fair values of the operation disposed of and the portion of the cash-generating unit retained.

(ii) Computer software

Acquired computer software are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives which are three to five years and are stated at cost less accumulated amortisation and accumulated impairment losses, if any.

For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(e) Intangible assets (continued)

(ii) Computer software (continued)

Costs associated with developing or maintaining computer software programmes are recognised as an expense as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Group, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Direct costs include software development, employee costs and appropriate portion of relevant overhead.

(iii) Concession right

A Subsidiary of the Group was granted the concession relating to the privatisation of the Medical Laboratory and Store of the Ministry of Health for the distribution of selected medical products to Government-owned hospitals for 11 years since 1998. The concession was extended for a further ten years commencing 1 December 2009. The right attached to this concession which was acquired as part of a business combination is initially measured at its fair value at the acquisition date.

The fair value of the concession right is amortised on a straight line basis over the remaining tenure of the concession contract.

(iv) Rights for supply

Expenses incurred to acquire the rights to supply pharmaceutical products is capitalised and amortised over a concession period of 10 years. The right has a finite useful life and is carried at cost less accumulated amortisation and accumulated impairment losses.

Where an indication of impairment exist, the carrying amount of the rights to supply pharmaceutical products is assessed and written down immediately to its recoverable amount in accordance with accounting policy set out in note 2.2 1(ii).

(f) Property, plant and equipment and depreciation

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the assets carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of all the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the statements of comprehensive income during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any accumulated impairment losses.

At each reporting date, the Group assesses whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the asset is fully recoverable. A write-down is made if the carrying amount exceeds the recoverable amount.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss.

Freehold land has an unlimited useful life and therefore is not depreciated. Short term and long term leasehold land is amortised over the period of the lease. Building-in-progress are also not depreciated as these assets are not available for use. Depreciation of other property, plant and equipment is provide for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following rates:

Building:

- Freehold	2%	- 2.5%
- Short term leasehold and long term leasehold	2%	- 20%
Air Crafts	6.7%	- 16.7%
Property, plant and equipment	6%	- 33.3%

2.2 Summary of significant accounting policies (continued)

(f) Property, plant and equipment and depreciation (continued)

The residual values, useful life and depreciation method are reviewed at each financial year end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in the statements of comprehensive income.

(g) Development properties

Development properties are classified as non current asset and stated at cost less any accumulated impairment losses. Development properties consist of land where no development activities have been carried out.

The recognition policy to measure impairment are based on notes 2.2 (l)(ii). Development properties comprise land banks which are in the process of being prepared for development but are not expected to be launched for sale. Costs includes land, materials, direct labour, professional fees, borrowing costs and other direct development cost and related overheads.

(h) Investment properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Properties rented out to subsidiary companies of LTAT's for business operation is considered owner occupied and not investment properties.

The Group and LTAT has adopted the fair value method in measuring investment properties. Investment properties are measured initially at its cost, including transaction cost. Subsequently to initial recognition, all properties are measured at fair value, with any changes recognised in the accumulated profits. When an item of property, plant and equipment is transferred to investment property following a change in its use, any difference arising at the date of transfer between the carrying amount of the item immediately prior to transfer and its fair value is recognised in the statement of comprehensive income. If a fair value gain reverses a previously recognised impairment loss, the gain is recognised in the statements of comprehensive income.

Fair value are based on market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction. Fair values of investment properties are determined either by independent professional valuers.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the statements of comprehensive income.

Investment properties under construction are classified under investment properties. However, if the fair value of the investment properties cannot be accurately measured, the investment properties are stated at cost until the fair value can be determined or the construction is completed, whichever comes first.

(i) Lease

(a) Finance leases

A lease is recognised as finance lease if it transfers substantially to the Group all the risks and rewards of ownership. Finance leases are capitalised at the inception of the lease at the fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Any initial direct costs are also added to the amount capitalised. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss. Contingent rents, if any, are charged as expenses in the periods in which they are incurred.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(i) Lease (continued)

(a) Finance leases (continued)

Leased assets are depreciated over the estimated useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life and the lease term.

(b) Operating leases

Leases of assets under which all the risks and rewards incidental to ownership are retained by the lessor are classified as operating leases.

Operating lease payments are recognised as an expense in profit or loss on a straight line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight line basis.

(j) Property development in progress

Property development in progress comprises cost of land currently being developed together related development costs common to the whole project and direct building costs.

Property development revenue and expenses are recognised in profit or loss by using the stage of completion method when the financial outcome of the development activity can be reliably estimated. The stage of completion is determined by the proportion that property development in progress incurred for work performed to date bear to the estimated total property development in progress.

Where the financial outcome cannot be reliably estimated, revenue is recognised to the extent that costs are recoverable and costs on properties sold are expensed in the period incurred.

Any expected loss on a development project, including costs to be incurred over the defects liability period, is recognised as an expense immediately.

The excess or shortfall of revenue recognised in statement of comprehensive income over billings to purchasers is classified as accrued billings within trade receivables or progress billings within trade payables respectively.

Property development costs not recognised as an expense are recognised as asset, which is measured at the lower of cost and net realisable value.

(k) Construction contracts

Where the outcome of a contract can be reliably estimated, contract revenue and contract costs are recognised as revenue and expenses respectively by using the stage of completion method. The stage of completion is measured by reference to the proportion of contract costs incurred for work performed to date to the estimated total contract costs.

Where the outcome of a contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are likely to be recoverable. Contract costs are recognised as expense in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Contract revenue comprise the initial amount of revenue agreed in the contract and variation in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and they are capable of being reliably measured.

When the total of costs incurred on contracts plus recognised profits (less recognised losses) exceeds progress billings, the balance is classified as amount due from customers on contract. When progress billings exceed costs incurred plus, recognised profits (less recognised losses), the balance is classified as amount due to customers on contracts.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(I) Impairment

(i) Impairment of financial assets

Carrying amounts of all financial assets (except financial assets classified under held for trading, investment in subsidiaries and investment in associates) are reviewed at each reporting date to determine whether there is any indication of impairment as a result of one or more events that give impact to the estimated future cash flows of the asset.

Loss from future event, no matter how it derives is not recognised.

For equity investments, significant and prolonged decline in fair value below cost is an objective evidence of impairment.

The impairment of loans and receivables are recognised in profit and loss and are measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount is reduced through the use of an allowance account.

The impairment of available for sale securities is recognised in statements of comprehensive income and is measured as the difference between its cost and its current fair value, less any impairment previously recognised in statements of comprehensive income. When the decline in fair value of financial asset recognised in other comprehensive income, cumulative losses in other comprehensive income will be reclassified from equity and recognised in the statements of comprehensive income.

The impairment of unquoted equity instrument that are stated at cost will be recognise in the statements of comprehensive income and are measured as the difference between carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Impairment for investment in equity are not reversed in the statements of comprehensive income in the subsequent periods.

(ii) Impairment of non-financial assets

Carrying amount of non-financial assets are reviewed at statements of financial position to determine whether there is any indication of impairment.

If such indication exists, the carrying amount will be written-down to its recoverable amount. Impairment are recognised in the statements of comprehensive income.

Reversal of impairment recognised in previous years will be made if there is an indication that previously recognised impairment are no longer exist or decrease. Such reversal cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment been recognised previously. All reversals will be recognised in the statements of comprehensive income.

(m) Inventories

Inventories and work-in-progress are stated at the lower of cost and net realisable value.

Cost consists of direct materials (calculated on the first-in, first-out or weighted average basis), direct labour, direct charges and an appropriate proportion of production overheads. In arriving at net realisable value, due allowance is made for all obsolete and slow moving items.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Inventories of completed properties comprise cost of land and the relevant development cost.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(n) Biological assets

The expenditure on new planting and replanting of a different produce crop incurred up to the time of maturity is capitalised while the initial costs of planting on the area replanted are charged to the statements of comprehensive income.

Depreciation charges and external borrowings costs related to the development of new plantations are included as part of the capitalisation of immature planting costs. Replanting expenditure incurred in respect of the same crop is charged to the statements of comprehensive income in the year which it is incurred.

(o) Cash and cash equivalents

For the purposes of the cash flow statements, cash and cash equivalents include deposits, cash and bank balances, overdrafts and short term that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. (r) Payables

Payables are stated at cost.

(s) Deferred taxation

Income tax recognised in profit or loss for the comprises current and deferred tax.

Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax is recognised using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not provided for goodwill not deductible for tax purpose and the initial recognition of assets and liabilities that at the time of transaction, affects neither accounting nor taxable profit.

(t) Employee benefits

(i) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group and LTAT. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees whereas short term non-accumulating compensated absences such as sick leave are recognised when absences occur.

(ii) Fixed contribution plans

Contribution made to Employees Provident Funds. This contribution is recognised as the Group and LTAT's expenses as an expense in the statements of comprehensive income as incurred.

(t) Employee benefits (continued)

(iii) Post retirement medical benefits

The Group and LTAT provide medical benefits to its retired personnel. Retirees who are re-employed on contract basis will utilise such benefits upon completion of the contract services. The provision of these medical benefits covers the full amount of medical costs in government and panel clinics/hospitals. This provision is accrued as an expense in the current year's statements of comprehensive income and as a liability in the statements of financial position as provision for post retirement medical benefits.

The liability amount of post retirement medical benefits is computed based on actuarial valuation (conducted every three years) where the amount of the benefit that employees have earned in return for their service in the current and prior years is estimated. That benefit is determined by the actuaries using the Projected Unit Credit actuarial method. Actuarial gains and losses are recognised as income or expense over the expected average remaining working lives of the participating employees when the cumulative unrecognised actuarial gains or losses for the scheme exceed 10% of the higher of the present value of the benefit obligation and the fair value of plan assets.

The principal assumptions used in this computation on the actuarial method are :

- (a) An inflation rate of 6% per annum on the medical treatment cost; and
- (b) A discount rate of 7% per annum.

Whereas, the computation on the liability amount for cash in lieu of annual leave award to retired personnel is based on actual figures on the statements of financial position date together with eligibility in the terms and condition of services. The current salary rate is used to compute the amount of this liability.

(u) Provision for retirement benefits

Provision is made for the staff retirement benefits that would become payable on the retirement of eligible employees.

(v) Foreign currencies

(i) Functional and presentation currency

Functional and presentation currency in the consolidated financial statement are presented in Ringgit Malaysia (RM).

(ii) Foreign currency transactions

Foreign currency transactions are translated in the functional currencies using the exchange rates prevailing at the dates of the transactions.

(w) Income recognition

Income from sale of goods and services is based on the invoiced value of those delivered during the year.

Income on telecommunication equipment sales is recognised on the delivery of the equipment and customer acceptance. Income on installation services is recognised on completion and acceptance of the installation work performed.

Income from contracts and property development is recognised on the percentage of completion method. Full provision is made of anticipated losses.

Interest income on held to maturity and loans and receivable for the subsidiary companies in the banking and financial sector are recognised using effective interest rates ('EIR'), which is the rate that exactly discounts estimated future cash receipts through the expected life of the loan or when appropriate, a shorter period to the net carrying amount of the loan.

(i) Operating fund

Grant received under this fund is for financing the operating expenses and is recognised as income in the statements of comprehensive income.

(ii) Fixed assets development fund

(iii) Entrepreneur development loans scheme fund

Grant received under this fund is for financing loans for entrepreneurs and is credited into the entrepreneur development loans scheme fund account.

(iv) Staff loans fund

Grant received under this fund is for financing loans for employees and is credited into the staff loans fund account.

(y) Non-current assets held for sale

Non-current assets or disposal group are classified as being held for sale if their carrying amount is recovered principally through a sale transaction rather than through continuing use. These assets are measured at the lower of carrying amount and fair value less costs to sell when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition subject only to the terms that are usual and customary.

Operational risk

Financial instruments comprise financial assets, financial liabilities and also off balance sheet financial instruments. The fair value of a financial instrument is the amount at which the instruments could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction. The information presented herein represents estimates of fair values as at balance sheet date.

Quoted market prices, when available, are used as the measure of fair values. For financial instruments, without quoted market prices, fair values are estimated using net present value or other valuation techniques. These techniques involve a certain degree of uncertainty depending on the assumptions used and judgements made regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows, future expected loss and other factors. Changes in these assumptions could materially affect these estimates and the resulting fair value.

Fair value information for non-financial assets and liabilities are excluded as they do not fall within the scope of FRS 132 which requires fair values to be disclosed. This includes property and equipment, statutory deposits with Bank Negara Malaysia, investment in subsidiaries, other assets, tax recoverable, deferred tax and intangible assets.

(iii) Fair Values of Financial Assets and Liabilities

Financial instruments comprise financial assets, financial liabilities and off-balance sheet financial instruments. Fair value is the amount at which the financial asset could be exchanged or a financial liability could be settled, between knowledgeable and willing parties in arm's length transaction. The information presented herein represents the best estimates of fair values as at the reporting date.

Quoted and observable market prices are used as the measure of fair values. Where such quoted and observable market prices are not available, fair values are determined using valuation techniques, which include the use of mathematical models, comparison to similar instruments for which market observable prices exist and other valuation techniques. In the determination of fair values, assumptions are made regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors. Changes in the assumptions could materially affect these estimates and the resulting fair value estimates.

Fair value information for non-financial assets and non-financial liabilities are excluded as they do not fall within the scope of FRS 132 Financial Instruments: Disclosures. These include investment in subsidiary companies, investment in associated companies, investment properties and property, plant and equipment.

I. BACKGROUND AND PRINCIPAL ACTIVITIES

Lembaga Tabung Angkatan Tentera, better known as LTAT was established in August 1972 by an Act of Parliament. The registered office of LTAT is located at 12th Floor, LTAT Building, Jalan Bukit Bintang, Post Box 11542, 50748 Kuala Lumpur.

The principal activities of Lembaga Tabung Angkatan Tentera (LTAT) as stipulated in the Tabung Angkatan Tentera Act 1973 (Act 101) are to manage and invest the members' contribution funds. The members' contribution funds represents the compulsory contributions of the other ranks in the armed forces as well as voluntary contributions of the officers in the armed forces and the mobilised members of the volunteer forces. These activities involved the process of collection, management and investment of the contribution funds in development properties (note 4), investment properties (note 5), subsidiary companies (note 6), associated companies (note 7), available for sale securities (note 8), loans and receivables (note 9), property development in progress (note 10) and held for trading securities (note 11) and deposits (note 12).

LTAT also undertakes to offer retraining for the retiring and retired personnel of the Malaysian Armed Forces.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with Financial Reporting Standards (FRSs) approved and issued by Malaysian Accounting Standards Board (MASB), in Malaysia for Entities Other Than Private Entities and adopted new and revised FRSs which are mandatory for the financial periods beginning on 1 January 2011.

Amendments to FRS 7 : *Financial Instruments: Disclosures Improving Disclosures About Financial Instruments*

Amendments to FRS 101 : *Presentation of Financial Statements*

Amendments to FRS 132 : *Financial Instruments : Presentation - Classification Of Right Issues*

Amendments to FRS 139 : *Financial Instruments : Recognition and Measurement*

Improvements to FRSs (2010)

(b) Basis of measurement

The financial statements of LTAT have been prepared under the historical cost basis, except as disclosed in the accounting policies below.

(c) Functional dan transactions currency

The financial statements of LTAT are presented in Ringgit Malaysia (RM), and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

(d) Use of estimates and judgements

The preparation of the financial statements in conformity with FRSs, requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

NOTES TO THE FINANCIAL STATEMENTS
For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Use of estimates and judgements (continued)

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than those disclosed in the following notes :

- Note 3 : Property, plant and equipment
- Note 5 : Investment properties
- Note 8 : Available for sale securities
- Note 10 : Property development in progress
- Note 11 : Held for trading securities

2.2 Summary of significant accounting policies

(a) Subsidiary companies

Subsidiary companies are companies in which LTAT has control directly or indirectly the financial and operating policies so as to obtain benefits from their activities. The existence and effects of the potential voting rights that are currently exercisable or convertible are considered when assessing whether LTAT has such power over another entity.

Investment in quoted and unquoted subsidiary companies are stated at cost less impairment losses.

(b) Associated companies

An associated company is defined as a company, not being a subsidiary company, in which LTAT has significant influence but not control, generally when LTAT has long term equity interest and voting rights between 20% to 50%. Significant influence is the power to participate in the financial and operating policy decisions of the associated companies but not the power to exercise control over the policies.

Investment in quoted and unquoted and quoted associated companies are stated at cost less impairment losses.

(c) Property, plant and equipment and depreciation

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the assets carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to LTAT and the cost of all the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the statements of comprehensive income during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any accumulated impairment losses.

Revaluation of land and building is carried out at each statements of financial position date to assess whether there is any indication of impairment. A revaluation deficit is recognised in profit or loss if the carrying amount exceeds the recoverable amount. Recoverable amount is fair value of the asset less selling cost or value in use.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss in which case the increase is recognised in profit and loss.

Any revaluation deficit is recognised in profit and loss except to the extent that it reverses an existing surplus on the same asset carried in the asset revaluation reserve.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. The revaluation surplus included in the asset revaluation reserve in respect of an asset is transferred directly to accumulated profits on retirement or disposal of the asset.

NOTES TO THE FINANCIAL STATEMENTS
For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(c) Property, plant and equipment and depreciation (continued)

Freehold land has an unlimited useful life and therefore is not amortised. Leasehold are amortised over the period of lease. Building-in-progress are also not depreciated as these assets are not available for use. Depreciation of other property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following rates :

<i>Building</i>	
- Freehold	2%
- Long term and short term leasehold	2% - 20%
 <i>Plant and equipment</i>	
	20%

The residual values, useful life and depreciation method are reviewed at each financial year end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in statements of comprehensive income.

Depreciation for the year is calculated only for property, plant and equipment purchased before 1 July. Depreciation for purchase after 30 June will be accounted for in the following year. Property, plant and equipment with purchase value of less than RM1000 per unit were expensed off in the year of purchase.

(d) Development properties

Development properties consists of land where no development activities have been carried out. Development properties are stated at cost less any accumulated impairment losses.

(e) Investment properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Properties that are rented to subsidiary companies of LTAT for conduct of business operations are accounted for as owner-occupied rather than as investment properties.

LTAT has adopted the fair value method in measuring investment properties. Investment properties are measured initially at its cost, including transaction cost. Subsequent to initial recognition, all properties are measured at fair value, with any changes recognised in the retained earning. When an item of property and equipment is transferred to investment property following a change in its use, any difference arising at the date of transfer between the carrying amount of the item immediately prior to transfer and its fair value is recognised directly in the statement of comprehensive income. If a fair value gain reverse a previously recognised impairment loss, the gain is recognised in the statement of comprehensive income. Upon disposal of the investment property, any surplus previously recorded in equity is transferred to statement of comprehensive income.

The fair values are based on market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in arm's length transaction. Fair values of investment properties are determined either by independent professional valuers.

Investment properties are derecognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognised in the statement of comprehensive income.

Investment properties under construction are classified under investment properties. If the fair value of the investment properties cannot be accurately measured, the investment properties are stated at cost until the fair value can be determined or the construction is completed, whichever comes first.

For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(f) Leases

Leases in which LTAT assumes substantially all the risks and rewards are classified as finance lease. All other leases are classified as operating leases.

Leasehold land is a finance lease and classified under property, plant and equipment.

(g) Financial instruments

Financial instruments are categorised and measured based on accounting policies as follows :

(i) Initial recognition and measurement

Financial instruments are recognised in the statement of financial position when, and only LTAT becomes a party to the contractual provisions of the financial assets.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial instruments not at fair value through profit or loss, directly attributable transaction costs.

Purchase and sales of investments are recognised at trade date, at the date of LTAT purchase or disposal of the assets.

(ii) Category and measurement

Financial instruments are categorised and measured as follows :

Financial assets

Classification of financial assets are determined at initial recognition and will be reviewed at every reporting date, except for investment under held for trading category. Investment in financial assets are categorised as follows :

(1) Held for trading securities

Held for trading securities are financial assets at fair value through profit or loss including financial assets held for trading or are designated as such upon initial recognition.

Any realised and unrealised gain or loss arising from changes in fair value are recognised in statement of comprehensive income.

Other assets which are classified under this category are measured at fair value and any gain or loss arising from the changes in fair value is recognised in statements of comprehensive income.

(2) Loans and receivables

Loan and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in active market. Financial assets classified in this category include cash and bank balances, loans and advances.

Interest income on loans and receivables is recognised as "Income" in the statement of comprehensive income.

Recognition in the usual way of loans and advances are recorded at the settlement date when all conditions under the loans contract have been fulfilled.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(g) Financial instruments (continued)

(ii) Category and measurement (continued)

Financial assets (continued)

(3) Available for sale securities

Available for sale securities are financial assets which are not categorised under financial assets at fair value through profit or loss or are not classified under the two preceding categories.

Investment in equities whose fair value cannot be reliably measured are measured at cost.

Financial assets under available for sale category are measured at fair value and any gain or loss are recognised in other statements of comprehensive income.

All financial assets except for held for trading securities are subject to impairment loss test.

Financial liabilities

All financial liabilities are measured at cost except financial liabilities at fair value through statements of comprehensive income.

Other financial liabilities which are categorised under fair value through profit or loss are measured at fair value and any gain or loss arising from the changes in fair value is recognised in statements of comprehensive income.

(iii) Derecognition

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expired, or the financial assets have been transferred to other parties without retaining any significant amount of risks and rewards from the transfers. On the derecognition of financial asset in its entirety, the difference between carrying amount and the sum of consideration received and any gain or loss that had been recognised in equity will be recognised in statements of comprehensive income.

(iv) Fair value measurement consideration

Fair value of financial assets are measured at closing price of quoted shares in an active market. Unquoted investments whose fair value cannot be reliably measured in active market, are stated at cost.

(v) Regular way purchase or sale of financial asset

Regular way purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place concerned.

A regular way purchase or sale of financial assets is recognised or derecognised, as applicable, using trade date accounting. Trade date accounting refers to :

(a) the recognition of an asset to be received and the liability to pay for it on the trade date, and

(b) the derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

(h) Impairment of assets

(1) Financial assets

Carrying amount of all financial assets (except financial assets classified under held for trading securities, investments in subsidiary and associated) are reviewed at reporting date to determine whether there is any indication of impairment as a result of one or more events that give impact to the estimated future cash flows of the assets.

NOTES TO THE FINANCIAL STATEMENTS
For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(h) Impairment of assets (continued)

(1) Financial assets (continued)

Loss from future event, no matter how it derives is not recognised.

For equity investments, significant and prolonged decline in fair value below cost is an objective evidence of impairment loss.

The impairment loss of loans and receivables are recognised in profit and loss and are measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount is reduced through the use of an allowance account.

The impairment loss of available for sale securities is recognised in the statements of comprehensive income measured as the difference between its cost and its current fair value, less any impairment loss previously recognised in the statements of comprehensive income. When the decline in fair value of financial asset recognised in other comprehensive income, cumulative losses in other comprehensive income will be reclassified from equity and recognised in statements of comprehensive income.

The impairment losses of unquoted equity instruments that are stated at cost will be recognise in the statements of comprehensive income and are measured as the difference between carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Impairment losses for investment in equity are not reversed in the statements of comprehensive income in the subsequent periods.

(2) Non-financial assets

Carrying amount of non-financial assets are reviewed at reporting date to determine whether there is any indication of impairment loss.

If such indication exists, the carrying amount will be written-down to its recoverable amount. Impairment losses are recognised in statements of comprehensive income.

Reversal of impairment losses recognised in previous years will be made if there is an indication that previously recognised impairment losses are no longer exist or decrease. Such reversal cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. All reversals will be recognised in statements of comprehensive income.

(i) Property development in progress

Property development in progress comprise of all costs that are directly attributable to development activities or that can be allocated on reasonable basis to such activities. When the financial outcome of a development activity can be reliably estimated, property development revenue and expenses are recognised in the statement of comprehensive income using the stage of completion method. The stage of completion is determined by the proportion that property development costs incurred for work performed to date bear to the estimated total property costs.

Where the financial outcome of a development activity cannot be reliably estimated, property development revenue is recognised only to the extent property development costs incurred will be recovered and property development costs on properties sold are recognised as an expense in the period in which they are incurred. Any expected loss on a development project, including costs to be incurred over the defects liability period is recognised as an expense immediately.

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(i) Property development in progress (continued)

Property development in progress capitalised as an expense are recognised as an asset is measured at the lower at cost and net realisable value. The excess of revenue recognised in the Statement of Comprehensive Income over billings to purchasers is classified as accrued billings within trade receivables and the excess of billings to purchasers over revenue recognised in the statement of comprehensive income is classified as progress billings within payables.

(j) Inventories

Inventories are stated at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(k) Loans and receivables

Receivables are stated at cost after reduction of allowance for bad and doubtful debts. Specific allowance are made for bad and doubtful debts which have been individually reviewed and specifically identified as bad or doubtful debts.

(l) Cash and cash equivalents

For the purposes of statement of cash flow, cash and cash equivalents include deposits, cash and bank balances that are readily convertible to cash and which are subject to insignificant risk of changes in value.

(m) Payables

Payables are stated at cost.

(n) Employee benefits

(i) Short term benefits

in which the associated services are rendered by the LTAT's employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees whereas short term non-accumulating compensated absences such as sick leave are recognised when absences occur.

(ii) Fixed contribution plans

Contribution is made to Employees Provident Funds. This contribution is recognised as an expense in the statement of comprehensive income as incurred.

(iii) Post retirement medical benefits

LTAT has provided medical benefits to its retired personnel and spouse. Retirees who are re-employed on contract basis will utilise such benefits upon completion of the contract services. The provision of these benefits cover full amount of medical costs in government and panel clinics/ hospitals. This provision is accrued as an expense in the current year's statement of comprehensive income and as a liability in the statement of financial position as provision for the post retirement medical benefits.

The liability amount of post medical benefits is computed based on the actuarial valuation (conducted every three years) where the amount of the benefit that employees have earned in return for their service in the current and prior years is estimated. That benefit is determined by the actuaries using the Projected Unit Credit actuarial method. Actuarial gains and losses are recognised as income or expense over the expected average remaining working lives of the participating employees when the cumulative unrecognised actuarial gains or losses for the scheme exceed 10% of the higher of the present value of the benefit obligation and the fair value of plan assets.

NOTES TO THE FINANCIAL STATEMENTS
For The Year Ended 31 December 2011

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Summary of significant accounting policies (continued)

(n) Employee benefits (continued)

(iii) Post retirement medical benefits (continued)

The principal assumptions used in this computation on the actuarial method are :

- (a) An inflation rate of 6% per annum on the medical treatment cost and
- (b) A discount rate of 7% per annum.

Whereas, the computation on the liability amount for cash in lieu of annual leave award to retired personnel is based on the actual figures on the statement of financial position date together with the eligibility in the terms and condition of services. The current salary rate is used to compute the amount of this liability.

(o) Foreign currency

(i) Functional currency and presentation currency

The financial statements of the LTAT are presented in Ringgit Malaysia (RM), which is the functional currency and presentation currency.

(ii) Foreign currency transactions

Income from property development is recognised on the percentage of completion method. Full provision is made of anticipated losses.

Annual grant received from government under Section 23 dan Section 3 (IA) (1994 - Section 3A), Tabung Angkatan Tentera Act 1973 (Act 101), is recognised on cash basis.

(q) Refund of expenditures, adjustments on income and expenditures

27. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(i) Equity/Investment risks (continued)

Sensitivity Analysis For Quoted Investment Risk

Considering that other risk variables remain constant, the table below summarises the impact on the carrying amount of the equity positions at the statements of financial positions date should there be a change in equity prices.

LTAT	Changed in Equity Market Prices %	Sensitivity of Revaluation RM'000
2011	+/-2	33,504
2010	+/-2	26,555

(ii) Liquidity risks

Liquidity risk is the risk that LTAT will not be able to meet its financial obligations as they fall due. LTAT's exposure to liquidity risk arises principally from its various payables.

LTAT maintains a level of cash and cash equivalent to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

The carrying amounts by maturity of LTAT's financial liabilities are sets out in the following table:

LTAT	Carrying Amount RM'000	Less than 1 year RM'000	Between 1-5 years RM'000	More than 5 years RM'000
2011 Payables	48,445	36,620	11,137	688
2010 Payables	64,369	49,778	14,591	-

(iii) Interest rate risk

Interest rate risk arises due to fluctuation in interest rate on the financial instruments sensitive to such changes held by LTAT.

LTAT manages its interest risks through approved guidelines and investment policies.

The following table sets out the carrying amounts, by maturity of LTAT's financial instruments that are exposed to interest rate risk :

LTAT	Carrying Amount RM'000	Less than 1 year RM'000	Between 1-5 years RM'000
2011 Deposits	771,510	771,510	-
Cash and bank balances	96,002	96,002	-
2010 Deposits	1,101,567	1,044,105	57,462
Cash and bank balances	81,684	81,684	-

Interest on financial instruments classified as fixed rate is fixed until the maturity of the instruments. The other financial instruments of LTAT that are not included in the above table is non-interest bearing and not subject to interest rate.

Sensitivity Analysis For Interest Rate Risk

It is estimated that a fifty basis points (50 basis points) increase/decrease in interest rate with all other variables held constant would decrease/increase LTAT's profit after tax by approximately RM4.627 million (2010:RM0.125 million) respectively, arising mainly as a result of higher/lower interest income.
